

Korhogo choir's visit

An exceptional group has just decorated the 2019-2020 academic year with a visit to the Senufo Cultural Center (CRSPCS). It is a choir from Korhogo in Ivory Coast. The troop consisted of 52 singers, including 48 women. After a time of discovery of the gardens, exhibition rooms for the Center's cultural objects, there was a friendly exchange between the team of the Center and the visitors. The exchange was shortened to allow visitors to continue their journey towards the capital of Bamako where they would stay for three days.

Thanks to our Ivorian brothers and sisters for this beautiful visit. May it be a source of blessings for all the visits and activities that the Center will undertake throughout this academic year.

Sikasso, October 10, 2019
